

Acknowledgement

As the final frontier towards achieving a master's degree, the activity of going through industrial orientation had bridge the gap between the academics and practical real-life work for me. It has prepared me to apply myself better to become a good professional. It required a lot people support to complete this training. I take this opportunity to acknowledge their supports.

Firstly, I would like to thanks Mr. Bhavesh Patel (Director, pCube Software Solution) for giving me an opportunity to work with one of the most esteemed organization of the country. An enviable work culture and an environment that encourages creativity and innovation have inculcated work culture and an environment that encourages creativity and innovation has inculcated in me a sense of discipline and perseverance.

I am indebted to Mr. Dinesh Prajapati for guiding me throughout the project development. Mr. Dilip Panchal helped me conceptualize the idea of the project and helped me streamline our work by providing me with every facility required.

I would also like to thank internal project guide Mr. Ayaz Momin and Mr.Pintu Prajapati for their continuous support. They helped me throughout the project and kept the work flowing smoothly. They have been a constant source of encouragement all the way and helped me in formulating our thinking about systems and users.

I was provided a simulating environment at pCube Software Solution. What the company has giving me is immeasurable and we delighted to think all the employees of the firm for their considerable support.
